

harvesting the mammary secretion product from the farm-animal.

22. (New) The method of claim 1, wherein the hyperimmunizing step comprises administering the antigen to an airway of the farm-animal.

C1 23. (New) The method of claim 2, wherein the hyperimmunizing step comprises administering the antigen intranasally to the farm-animal.

24. (New) The method of claim 1, wherein the mammary secretion product is milk.

25. (New) The method of claim 1, wherein the antibody is an IgA antibody.

26. (New) The method of claim 1, further comprising boosting an immune response to the antigen in the farm-animal.

27. (New) The method of claim 26, wherein the boosting step comprises administering the antigen to an airway, a mammary gland, and/or a supramammary lymph node of the farm-animal.

28. (New) A method of making an antibody composition comprising an antibody specific for an antigen, the method comprising:  
hyperimmunizing a farm-animal for the antigen;  
administering the antigen to a mammary gland and/or a supramammary lymph node of the farm-animal;  
harvesting the mammary secretion product from the farm-animal; and  
deriving the antibody composition from the harvested mammary secretion product.

29. (New) A method of making an antigen-specific antibody, the method comprising:  
hyperimmunizing a farm-animal for an antigen;
